6 responses

2. Do you often use social media in your daily work?

6 responses

3(). What social media do you use the most?

6 responses

3(II). What is your reason for your chosen answer in the last question?

6 responses

More engaging

Combination of images and networking opportunity

More engagement and raw opinions

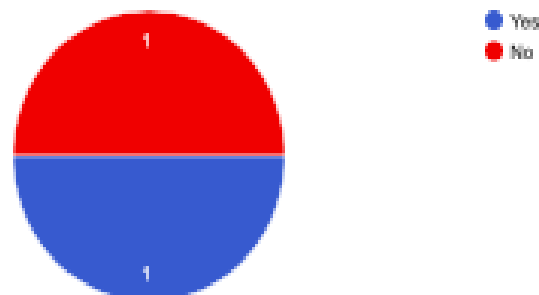

Advertisement of content

It depends if in work or personally, but with work I'd use Twitter as it's a wider platform where you can reach to many more platforms/individuals than just a like or a tag.

Easier to communicate with friends

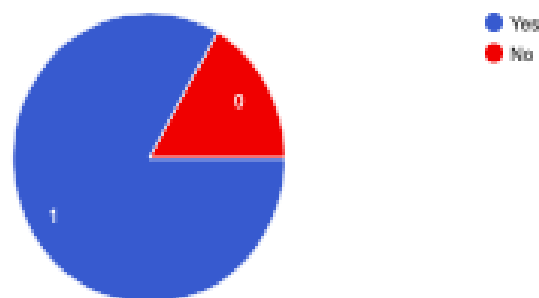

4. Do you think all young people have access to social media these days?

6 responses

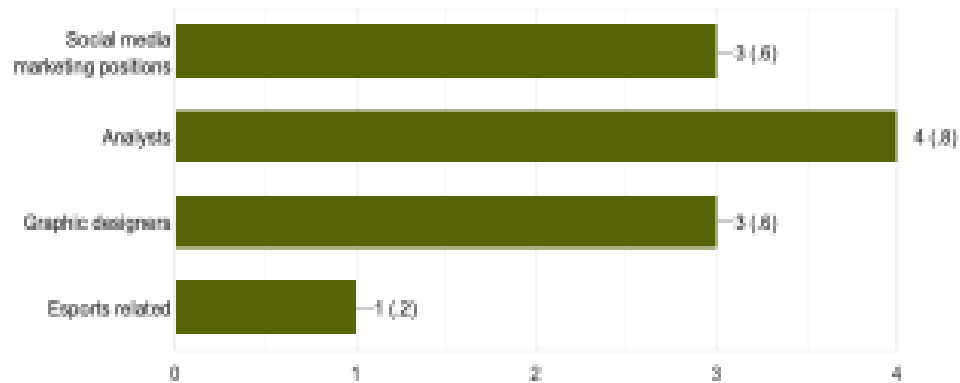

5(I). In your organisation, do you think there will be an increase in new types of professions and workplaces for people in connection with the development of ICT?

6 responses
